

Request to Exclude a Car from Scoring in the Midland Speed Championship

The Toyo Tires Midland Speed Championship includes a number of rounds where some or all classes are not run to Midland Speed Championship regulations. Also, it has been our experience in the past that the interpretation and application of the eligibility regulations has not been consistent at all venues.

This form is to be used if you believe that a car running at an event should, for the purposes of calculating scores in the Midland Speed Championship, be excluded from the results or moved into another class. **IMPORTANT:** This form has no official status under the MSA regulations and should not be considered as an alternative to the formal protest mechanism.

About the event

Date		Venue	
Organising Club			
Class affected run to Midland Speed Championship regulations? (Yes / No)			

About the driver making the protest

Name			
Car			
Comp. Number		Class	
Signature			

About the car being protested

Driver's Name			
Car			
Comp. Number		Class	
Reason for protest			

Comments of the driver being protested

Wherever possible, the driver of the car under protest should be asked to comment on the objection raised to his / her car. It should be made clear that, unless the matter is also raised with the officials of the event, this protest only affects the scoring of the Redline Motorsport Midland Speed Championship and will not affect the event results.

Driver's Comments			
Signature			
Driver declined to comment		Driver not asked to comment	

Official action taken at the event

If the protest relates to a matter that contravenes the regulations of the event, the matter should be raised with the officials of the event. This form may be filled in as well, but this is not an alternative to raising the matter with the event officials. It may not be possible to act on a protest if the officials of the event should have been informed, and were not.

Names and positions of event officials informed	
Action taken by event officials	

Observations of independent witnesses

If the protest relates to a matter that does not contravene the regulations of the event or the officials of the meeting decline to act on the protest, then independent witnesses should be asked to verify the condition of the car under protest. Independent witnesses should be scrutineers, members of the Midland Speed Championship Committee not registered or competing in the same class as the car under protest, or other competitors known to the committee not registered or competing in the same class as the car under protest. Photographic evidence should also be obtained if possible.

Witness observations			
Witness name		Signature	
Reason for presence at event (e.g. comp. number and class for competitors)
